

PRESS RELEASE

4 March 2019

Call for Entries for ambitious public art commission to enhance Paddington's public realm

The Paddington Partnership – a consortium of the major landowners and developers working at Paddington – is inviting submissions from artists, architects and designers to create a graphic or art-led installation to connect and enrich the pedestrian environment around Paddington Station.

Entrants are invited to use walls, bridges, street furniture, building facades, crossings and surfaces as the canvas for a sustainable, interactive artwork which makes the area more legible, welcoming and coherent and responds to the local context, character and heritage.

The client for the commission is The Paddington Partnership, whose members include British Land, European Land, Derwent London, CC Land, YardNine, Heathrow Express and Tishman Speyer. British Land is acting as delivery agent.

The deadline for Expressions of Interest is 1 May 2019. Up to three shortlisted entrants will receive a fee of £1,000 to work up a more detailed proposal. The winning project has been allocated a budget of up to £250,000 with a target delivery date of 31 March 2020.

Visit www.thisispaddington.com/article/paddington-connections-open-call-for-submissions for details of the application and selection process and to download the project brief.
